Mercury Marine introduces Repower Revolution promotion

Mercury Marine has introduced its “Repower Revolution” promotion that offers consumers a choice between promotional financing for repower engines and repower rebate dollars upon purchase of a qualifying engine.

The Mercury Repower Financing Program launched in September laid the groundwork for the Repower Revolution promotion and offers repower-engine financing to credit-worthy consumers.

Repower Revolution, which launched Oct. 10 and runs until Nov. 30, offers a promotional financing rate of 4.99% APR for qualified applicants. This low rate, along with down payments as low as 10 percent, provides more consumers the option of financing their repower purchases. Consumers who choose the Repower Revolution rebate instead of financing can receive a rebate of up to $1,500 per qualifying repower engine.

By offering the choice of promotional financing or a repower rebate, the Repower Revolution promotion provides consumers options to ease the effects of a big-engine purchase on their wallets.

*The Repower Revolution promotion is available in all U.S. states except Alaska, Hawaii, Louisiana, Montana, Rhode Island and West Virginia.*
