LUMISHORE ACHIEVES SIGNIFICANT MILESTONE: 24TH CONSECUTIVE MONTH OF DOUBLE-DIGIT SALES GROWTH
(MARCH 24TH, 2014) - Swansea U.K and Sarasota USA - Lumishore, the world’s leading manufacturer of high performance LED Underwater Lights, today announces sales growth in excess of 95% for year ending December 31, 2013, and expects Q1 2014 sales to increase in line with this performance.

In support of this rapid sales growth, the company recently completed a move to a new research, development and manufacturing facility in Swansea UK, quadrupling Lumishore’s manufacturing capacity.

“We are extremely proud of our outstanding 2013 sales which set an all-time record.” CEO Eifrion Evans said in a statement. “High demand from shipyards, boatbuilders and consumers alike have resulted in 24 consecutive months of double-digit sales growth. This performance is testament to our world-leading product ranges, product excellence and uncompromising approach to quality. Lumishore’s solid financial results over the past few years has enabled continued investment in new Underwater LED light technology, such as the recently launched Lumishore EOS Color Change Underwater Light System, which is further fuelling customer demand.”

Lumishore is a privately-owned company.

ABOUT LUMISHORE LTD.
Widely recognized as the market leader, award nominated Lumishore creates the brightest, best and most beautiful underwater LED lighting solutions. Focused exclusively on the LED Underwater Light market and using proprietary LED technology, Lumishore has established itself as the premier supplier of underwater LED lighting solutions has ABS Classification Approval and is the only underwater LED lighting provider with full Lloyd’s Type Approval including EMI.
