Lumishore wins prestigious Queen’s Award for Enterprise

April 21, 2014

Lumishore, the world’s leading manufacturer of high performance Underwater LED Lighting Systems, is the proud recipient of UK’s highest accolade for business success.

Lumishore is delighted to be announced as the winner of British industry’s most coveted Queen's Award for Enterprise, endorsing the highest levels of excellence in Britain’s elite companies.

The Queen’s Award for Enterprise, International Trade recognises Lumishore’s substantial and sustained commercial growth of Lumishore’s underwater LED lighting systems, which are created by Lumishore’s world leading development team.

Confirming Lumishore’s unrivalled world leadership in Underwater LED lighting systems, the Queen’s Award reflects Lumishore’s unique, valued innovation, as well as Lumishore’s world-class expert staff, who produce the best and most beautiful underwater lighting effects.

The Queen’s Award is the oldest in a number of significant ‘firsts’ for Lumishore, including Lloyds Type Approval with EMI testing, ABS Classification Approval, ISO9001 Certification, and ground-breaking fully integrated colour changing underwater lighting systems.

“We are extremely proud to be recognised for our sustained growth and success - I would like to thank our loyal customers and suppliers who have enabled this achievement“ says Eifrion Evans, CEO. “The Award confirms our market-leading position, customer focus and product excellence, which reflects the hard work and dedication of Lumishore’s world class people, meeting the challenges of a truly international business. Looking forward, our advanced used product development plans and our investment in used equipment and people, which give us a four-fold expansion of our production capacity, will enable our continued future growth.”

Lumishore is a privately-owned company, headquartered in Swansea, UK. All Lumishore lighting systems are exclusively designed, developed and manufactured inhouse in the UK. Lumishore has an established US division, Lumishore USA, based in Sarasota, FL. for more information : Eifrion Evans, CEO Lumishore, Tel: +44 (0) 7768 798446, mail: ceo@lumishore.com

Recognized as the global market leader, Lumishore creates the brightest, most beautiful underwater LED lighting solutions for the marine sector. Lumishore is focused exclusively on the LED Underwater Light market, using proprietary LED technology. Every Lumishore LED light is the result of an uncompromising approach to design, development, manufacture and a continuous search for cutting-edge lighting effects. Lumishore is ISO9001 certified, has ABS Classification Approval, is the only underwater LED lighting provider with full Lloyds Type Approval including EMI testing, and has proven itself as the premier supplier of underwater LED lighting solutions to the marine sector. Lumishore designs, develops and manufactures its
systems exclusively in Swansea, U.K. This complete in-house capability enables exceptionally powerful, market-leading bright lights from 1,300 to over 23,000 fixture lumens.

About the Queens Award for Enterprise: The Queens Award is made annually by HM The Queen, and is only given for the highest levels of excellence demonstrated in the categories of International Trade, Innovation and Sustainable Development. It is awarded by HM The Queen, based on the recommendation of the Prime Minister. Of the very many applications received, only approximately 160 Queen’s Awards are announced today, for outstanding business achievement across all three categories.
