Pilothouses On Westport 130 Yachts
Now Feature Nauticom Centric GB Widescreen Displays

ONTARIO, CANADA - Nauticom Centric GB (Glass Bridge) 26" widescreen, thin edge displays are now installed as standard equipment to provide a clean, modern look to the pilothouses of all Westport 130 (40m) yachts.

Centric GB Displays are specially-designed for multiple display installations and include a compact remote to control up to 5 displays from a single keypad. Multiple inputs, available at each display, allow access to all sources (DVI, VGA, NTSC/PAL, and S-Video) with complete redundancy. They also offer deep dimming (0 to 100% via 'Potentiometer'), as well as Picture in Picture and Picture beside Picture capability.

For more information about Nauticom Centric GB Displays and other Nauticom products, visit www.nauticom.com or call 1+705.328.2992.
