LOWRANCE LAUNCHES SONICHUB™
Marine Electronics Leader Debuts the World’s First Marine-Grade, High-Definition Audio Server

Tulsa, Okla. – Lowrance, a world-leading brand in marine electronics since 1957 and GPS navigational systems since 1992, announced today its new SonicHub ™, a revolutionary audio hub and docking station for recreational boaters. Designed in collaboration with Fusion, a leader in marine stereo systems, Lowrance SonicHub is the world’s first marine-grade audio server that networks with multiple onboard displays, each with total audio control. The innovative audio solution is compatible with the award-winning Lowrance High Definition System (HDS®) displays offering boaters a feature-rich stereo system that delivers clear and dynamic sound reproduction with an easy-to-use interface displayed on a single, brilliant large viewing screen.

Lowrance SonicHub features a built-in AM/FM tuner and an internal docking station for the Apple® iPod and iPhone devices. Allowing boaters full access to their music collections on-the-water at the touch of a button, the waterproof docking station prevents jostling and potential damage to a portable player in rough sea conditions or at high speeds, and ensures that music plays continuously without the common skipping problems associated with compact disk players. Compatible with the Apple iPod Touch, iPod Nano (Gen3, Gen4 and Gen5) and iPod Classic (Gen5, Gen6 and Gen7) as well as the iPhone, iPhone 3G and iPhone 3GS models and other USB MP3 players, SonicHub’s industry-leading interface allows for full control and selection of songs by artist, song, playlist, albums and genre via the HDS display. The system also offers crisp, loud audio output of AM/FM broadcasts -- giving
Lowrance SonicHub paired with an HDS 5”, 7”, 8” or 10” sunlight-viewable display, offers boaters a sensational sound and visual control experience. Featuring a high-power 50W amp, the system comes bundled with stylish marine-grade 6.5” 200W best-in-class speakers for a quality sound that can be enjoyed above engine, wind and other ambient noises typically associated with boating. SonicHub’s intuitive and stylish user interface gives boaters menus and icons that are easy-to-understand and navigate. The stereo system is NMEA 2000 compatible and simple to install. Well-suited for discerning yachtsman and owners of smaller boats, where space is limited, SonicHub does not require any holes cut in the console for installation of a head unit. The Lowrance stereo system is waterproof to the IP65 standard and has an optional subwoofer.

The Lowrance SonicHub package (audio server, docking station, speakers, NMEA 2000® adapter and 6-foot extension cable) has a suggested retail price of US $299 and can be purchased from authorized Lowrance dealers and distributors throughout the United States and Canada. For more information on the Lowrance SonicHub, HDS multifunction displays, or the entire Lowrance line of marine electronics, please visit www.lowrance.com or call 1.800.324.1356 in the USA or 1.800.661.3983 in Canada.
