Seaview Launches New Self Leveling Radar Mounts

Lynnwood, WA - 02/06/09 - Seaview by PYI is pleased to announce the release of a new line of Self Leveling Radar Mounts. This system will keep the radar level with the horizon as the boat heels or rolls. The carbon fiber or stainless steel radar baskets minimize weight while the S.S. head unit ensures durability. Seaview by PYI is the market leading manufacturer for radar / satellite mounting solutions & once again is at the leading edge of product development with the launch of a completely new product line of self leveling mounts. To receive additional information or if you have any questions regarding Seaview products please contact Seaview product manager Jason Romesburg - jromesburg@pyiinc.com.
