Westerbeke awards additional territory to Marysville Marine

Westerbeke Corporation, Taunton, Massachusetts, manufacturers of marine engines, generators and air conditioners, announces the award of additional territory for their long time distributor Marysville Marine.

Marysville Marine added the states of Arkansas, Kansas, Missouri and Oklahoma to their Westerbeke portfolio.

With the addition of these states, they are now responsible for Arkansas, Illinois, Indiana, Iowa, Kansas, Kentucky, Michigan, Minnesota, Missouri, Nebraska, Western New York and Western Pennsylvania, North and South Dakota, Ohio, Oklahoma, Tennessee and Wisconsin.

Marysville Marine has been in the marine industry for over 30 years providing their customers with outstanding service and technical support, which have proved to be the foundation of their success. They became a Westerbeke distributor in 1980.

Westerbeke offers a comprehensive line of marine engine products available in both gasoline and diesel versions. Westerbeke diesel generators range from 4.0 kW to 33.0 kW, with gasoline models from 3.5 kW to 22.5 kW. Westerbeke marine diesel propulsion ranges from 12 to 66 horsepower. Westerbeke also manufactures and markets the line of Universal Marine engines from 20 to 26 horsepower, including replacements for the Universal Atomic Four engine.

In addition, Westerbeke manufactures and markets a line of marine climate control systems under the trade name Rotary Aire.
