Westerbeke awards more territory to Trans Pacific Distributors

Thursday, 21 June 2012

Westerbeke Corporation, Taunton, Massachusetts, manufacturers of marine engines, generators and air conditioners, announces the expansion of territory for their Master Distributor Trans Pacific Distributors.

Trans Pacific Distributors located in Fairfield, CA was awarded the states of Colorado and New Mexico and they are now responsible for Colorado, New Mexico and Northern California.

Trans Pacific has been in the marine engine distribution business since 1983 providing engines, parts and service and is fully staffed to provide comprehensive product and customer support for Westerbeke products. They were originally appointed as a Westerbeke Master Distributor for Northern California in mid 1989.

Westerbeke offers a comprehensive line of marine engine products available in both gasoline and diesel versions. Westerbeke diesel generators range from 4.0 kW to 33.0 kW, with gasoline models from 3.5 kW to 22.5 kW. Westerbeke marine diesel propulsion ranges from 12 to 66 horsepower. Westerbeke also manufactures and markets Universal Marine engines from 20 to 26 horsepower, including replacements for the Universal Atomic Four engine.

In addition, Westerbeke manufactures and markets a line of marine climate control systems under the trade name Rotary Aire.
