

RENEWAL FORM
CERTIFIED MARINE ELECTRONICS TECHNICIAN (CMET)

Applicant Name	Employer	
Current Mailing Address Street or PO Box	Phone number	Fax Number
City State Zip	Email address	

The NMEA CMET renewal period is five years from the date of issue. CMETS who successfully complete three renewal exams (one at their 5 year anniversary, again at their 10 year anniversary, and again at their 15 year anniversary) automatically achieve Lifetime CMET status upon passing their third and final renewal test. The only other requirement is this individual is still active in the Marine Electronics Industry.

For those CMETS who have expired within a 2 year grace period, they may renew by taking a 50 question on-line test and pay the standard renewal fee of \$50 for NMEA members and \$100 for non-members.

Once payment is received at the NMEA office, staff will email a link to take the on-line test.

Once completed the on-line test, the testing program will automatically email the test results to the NMEA office, in which NMEA staff can verify the student's grade, then print and mail a new CMET certificate.

DOCUMENTATION REQUIRED

USA Renewals: FCC License with GROL & SHIP RADAR ENDORSEMENT* (Copy front & back and attach)

International Renewals: Copy of Government issued ID and equivalent commercial radio repair license issued from their country. (Copy front & back and attach) NMEA will verify this information.

I certify that I meet the requirements specified by the CMET Program Guidelines
