

John Barry- Owner**Technical Marine Support, Pleasant Prairie, WI**

John has been an NMEA Trainer since 2013. He services the commercial shipping fleet in the Chicago / Milwaukee area in the great lakes. John Barry started Technical Marine Support Inc. to serve the marine electronics needs of boats operating in the Great Lakes and Inland waterways. He holds NMEA CMET, FCC GROL and GMDSS licenses. John has wide ranging experience on many types of boats, from yachts to commercial vessels, power to sail, large to small. As an instructor, John has the ability to put complex technical subjects into understandable real world terms. Today, TMS serves mostly commercial vessels on the Great Lakes and rivers, with integrated electronics installation, support and training.
