

**NMEA 2000® Standard Committee
Announcement PLUGFEST**

The National Marine Electronics Association (NMEA) will be producing a *Plugfest* September 27, 2009 directly before the NMEA Convention. You are invited to participate.

Plugfest is a laboratory event for NMEA 2000® manufacturers. You may participate if you have new NMEA 2000® products, old NMEA 2000® products, or NMEA 2000® products under development. This is your opportunity to interconnect with other NMEA 2000® certified products, to experiment with other NMEA 2000® products and to view real-life, real-time events. Diagnostics will be available. This is a great opportunity to collaborate.

This *Plugfest* will be at the site of the annual NMEA Convention, Sanibel Island Resort, Ft Myers, Florida on September 27, 2009 from 8:00 AM to 6:00 PM.

If you'd like to attend, please RSVP by June 30, 2009 to Steve Spitzer, NMEA Technical Director, sspitzer@nmea.org

Visit: www.standards.nmea.org for more details.

This event is not open to the public.
